

高一分班考试卷 03

说明：

(1) 本场考试时间为 90 分钟，总分 100 分

(2) 请认真答卷，并用规范文字书写

II. Grammar and Vocabulary Choices (8%)

Directions: Choose the best answer to complete the following sentences:

17. _____ ourselves in the hall, all of us began to appreciate the 2017 Jianping New Year Concert.

- A. Having seated B. Seated C. To seat D. To be seated

18. China release its annual characters and words of 2016 on December 20, with “规(rule)” and “小目标 (small goal)” _____ among the candidates characters and words.

- A. to win out B. being won out C. winning out D. won out

19. _____ the disaster area himself gave victims a great deal of encouragement.

- A. The president will visit B. The presidents' visiting
C. The president visited D. The president to visit

20. The Great Wall, _____ by Zhang Yimou is being regarded as one that can help the Chinese film take on the world.

- A. directed B. directing C. to direct D. being directed

21. Beijing recently published the third draft of regulations, which aroused fierce public discussions, _____ smog was listed as a meteorological (气象的) disaster.

- A. when B. which C. what D. where

22. _____ sadly, the little boy raised his head and had the tears falling down on purpose.

- A. Seen to cry B. To been seen crying C. Seen crying D. To be seen cried

23. Since drama was _____ to the English class, studies have been more and more interested in the English learning.

- A. linked B. devoted C. introduced D. adapted

24. The police offered \$100,000 as a(n) _____ for information about the robbery which happened in that bank last week.

- A. award B. profit C. expense D. reward

III. Blank-filling

Directions: After reading the passage below, fill in the blanks to make the passage coherent and grammatically correct. For the blanks with a given word, fill in each blank with the proper form of the given word; for the other blanks, use one word that best fits each blank.

“LET’S Uber.” Few companies offer something so popular _____25_____ their name becomes a verb. But that is one of the many achievements of Uber, a company _____26_____ (found) in 2009 which is now the world’s most valuable startup, worth around \$70 billion. _____27_____ app can summon(召唤) a car in moments in more than 425 cities around the world, to the fury of

taxi drivers everywhere. But Uber's ambitions, and the expectations underpinning its valuation, extend much _____28_____ (far): using self-driving vehicles, it wants to make ride-hailing (扬招汽车) so cheap and convenient that people forgo car ownership altogether. _____29_____ (not satisfy) with shaking up the \$100-billion-a-year taxi business, it has its eye on the far bigger market for personal transport, worth as much as \$10 trillion a year globally. Uber is not alone in this ambition. Companies big and small _____30_____ (recognize) the transformative potential of electric, self-driving cars, summoned on demand. Technology firms including Apple, Google and Tesla are investing heavily _____31_____ independent vehicles; from Ford to Volvo, incumbent carmakers are racing to catch up. It will transform daily life as profoundly as cars did in the 20th century: reinventing transport and reshaping cities, _____32_____ also dramatically reducing road deaths and pollution.

IV. Vocabulary Choices

Directions: Complete the following passage with the words in the box. Each word can only be used once. There is one extra word which you don't need.

- A. recovering B. identity C. will D. accounts for
E. enjoy F. involves G. farming H. deny

People became vegetarians for a variety of reasons -----to relieve animal suffering, to pursue a healthier lifestyle or to reduce greenhouse gas emissions. No matter how much the great-eaters _____33_____ it, vegetarians have a point: Cutting out meat delivers a number of benefits. But if everyone became a strict vegetarian, there would be serious problems for millions, if not billions, of people. Food production _____34_____ one quarter of the greenhouse gas emissions world wide. The main responsibility fall on the livestock(牲畜) industry. If we should all go vegetarian, ideally at least 80% of that land could be used for _____35_____ the grasslands and forests, which would capture carbon and relieve global warming. Furthermore, the increase of natural habitats would also likely to a benefit to biodiversity(生物多样性). Despite these advantages, if the world went vegetarian, we should need to provide clear career opportunities for people formerly engaged in the livestock industry. Otherwise, we would probably face significant unemployment and social disorder. Without livestock, life in certain environments would likely become impossible for some people, especially nomadic (游牧的) groups, whose culture _____36_____ might be lost in the process. In addition, going vegetarian _____37_____ replacing meat with other proper nutrition, which could create a health crisis in the developing world. Fortunately, the entire world doesn't need to change to vegetarianism to _____38_____ many of the benefits. Clear solutions already exist for reducing greenhouse gas emissions. What is lacking is the _____39_____ to realize those changes.

V. Reading Comprehension

Section A

Directions: For each blank in the following passage there are four words or phrases marked A, B, C, D. Fill in each blank with the word or phrase that best fits the context.

Language is hard. In fact, it's harder and more complicated than math. And yet, nearly small child can learn and master language.

Why is math so overwhelming for so many students? And how high is the price we pay from having so many math-____40____ or even math-illiterate(无知的) people in our society? Too high, especially as the ability to grasp data and pursue advanced work that involves math is becoming increasingly____41____ for both citizens and job applicants

How many of us feel incapable, rather than poorly taught, when we are faced with the difficulties of math? How many children who struggled to grasp math concepts were led to feel stupid?

____42____ it to spoken or written language. When you make a mistake, a teacher corrects the part that is wrong. And then you proceed. With math, if you don't have the correct result, it is typically treated as wrong. And, as mistake after mistake ____43____, too many students simply give up: I can't do math.

But math is not about intelligence. It's a language that too many people never learn, often because the education process ____44____ the number of ways that a given person can arrive at a given solution.

That's not a failure of children to learn. That's a failure of ____45____. It's a failure of the school. We should not blame the student. (These are children, after all.)

Part of the challenge is to ____46____ the gaps in knowledge, to clarify that the challenge is not that a student simply doesn't understand algebra(代数) or trigonometry(三角学) or whatever. There may be a particular basic concept that stands ____47____ of going forward in math, as well as other fields such as social science or engineering.

Overcoming this block requires moving beyond broad industrialized education and to individualized, ____48____ learning that allows students to find their own way in. Show me a thousand students and I'll show you a thousand ____49____ pathways that they might take to achieve math success.

With new digital technologies and a massive amount of data collection and analytics, we have the ability to help students identify the essential concepts they don't understand. We have data on all the students that solved a particular math problem and those that failed to solve it. We also have data on the problems they were able to solve prior to that. So as a student recognizes that they are ____50____ with, say, negative number concepts, they can go back and master the material—to fill in the gaps that allows them to go forward. And when they hit another tough spot? They can jump to the problems that allow them to master that concept. The hope is that as they progress, their interest and enthusiasm ____51____.

In the years ahead, that mindset, borne out of the failure of math instruction, should be ____52____. If we can succeed at breaking down the ____53____ that there's something wrong with a 3rd grader who cannot learn math—rather than something wrong with the teaching process—then we can look forward to new generations of math-literate citizens. Whatever career they choose, they will be more confident and more capable to understand and contribute to an increasingly complex, ____54____-driven world.

- | | | | |
|--------------------|------------------|------------------|-------------------|
| 40. A. interested | B. amazed | C. controlled | D. terrified |
| 41. A. natural | B. unnecessary | C. important | D. common |

| 53. A. prediction | B. assumption | C. truth | D. theory |
| 54. A. data | B. power | C. material | D. culture |

Section B

Directions: Read the following three passages. Each passage is followed by several questions or unfinished statements. For each of them there are four choices marked A, B, C and D. Choose the one that fits best according to the information given in the passage you have read.

(A)

In the United States, some people mark ballots(选票) that bear the printed names of candidates. Others pull levers in voting machines. Americans are proud of their long history of holding free elections, but they did not invent the process.

Free elections were held in Athens, Greece, 2400 years ago. Some Europeans took part in local free elections during the Middle Ages. The secret ballot was first used in 1858 in Australia.

Today, voting is a new experience for many of the world's peoples. Since World II, many who never had a voice in their government now take part in free elections.

When India held its first national elections in 1951 and 1952, the process was so complicated that it took four months. Few people could read, so the ballots bore pictures that stood for the different parties. People who wanted to vote for Gandhi's Congress party, for example, put an X under the picture of yoked oxen.

In our hemisphere, there are also voters who cannot read. The Dominican Republic held its first free national election in 1962 with rainbow- coloured ballots. The different colors identified the parties for people who could not read the candidates' names.

Today, computers are changing the way people vote. In 1974, Mexico set up a computerized voting system. In the future, people all over the world may be able to vote by touching computer screens. These screens could show candidates' names, pictures, or party symbols.

Any change that encourages people to vote helps government work. Oregon lets people vote by mail. Texas has voting in convenient spots such as malls. As long as people want to have a voice in the government, they will try new ways of voting.

55. Why did ballots in India bear pictures?

- A. Because pictures could stand for different parties.
- B. Because many voters couldn't read candidates' names.
- C. Because Gandhi's Congress Party liked the pictures of oxen.
- D. Because the process of election was very complicated

56. We can infer from the passage that _____.

- A. People all over the world have been voting for 2,400 years.
- B. Americans invented the process of free elections
- C. The first secret ballot was invented in Athens.
- D. Many people didn't have the right to vote until World War II.

57. On the whole, the passage tells about _____.

- A. complicated elections in America and Europe
- B. the right way to carry out the free election
- C. how people vote in many parts of the world.

D. how free election developed in the western country.

(B)

The World in 2017 ---World GDP Growth Prediction---			
India		Malaysia	
GDP growth	7.5%	GDP growth	4.5%
GDP per head	\$1,772	GDP per head	\$10,136
Population	1,340 million	Population	31.2 million
India is enjoying continuous economic growth. Recently, part of the problem is that the government lacks a majority in the House, weakening its ability to implement its economic programme. Reform will proceed, but the government's focus will shift towards re-election.		The ruling government's term doesn't end until 2018, but it may call an election in mid-2017. Its leader, the prime minister, Najib Razak, is facing pressure to respond to his neglect of duty at a state-owned firm. Faced with weak opposition, the government will pressure reforms designed to lift Malaysia to high-income condition, though low oil prices will slow the process. The economy will grow, but more slowly than earlier in the decade.	
Saudi Arabia		United States	
GDP growth	1.7%	GDP growth	2.3%
GDP per head	\$23,833	GDP per head	\$59,391
Population	31.9 million	Population	326.5 million
The king, Salman bin Abdul-Aziz al-Saud, will increasingly delegate decision-making to his son, Muhammad bin Salman al-Saud, the deputy crown prince. Prince Muhammad will pursue wide-ranging reforms designed to secure long-term economic growth and break the reliance on oil exports, while maintaining the royal family's power. Rising but still-low prices will squeeze the finances of Saudi Arabia.		Income inequality and the trouble of the middle class led to the result of the election campaign in 2016, but recently Americans, including those at the very bottom, have enjoyed surprisingly <u>robust</u> income gains. Employers will add 2 million more jobs in 2017, drawing more of the excluded back into the workforce. This will lift spirits, but companies will wait for the direction from the new president and Congress.	

58. The underlined word "robust" most probably means _____.

A. soft B. slight C. strong D. few

59. Which of the following countries will probably account for the LEAST amount of GDP in 2017

A. India B. Malaysia C. Saudi Arabia D. United States

60. Which of the following statements is NOT TRUE according to the passage?

A. So far, the companies in America are not clear about the economic policy

B. In 2017, the economy of Malaysia will grow as rapidly as ten years before.

C. Saudi Arabia was depending on oil export to expand the economy.

D. The India government cannot put all the economic programmes into effect in 2017.

61. Where does this passage most probably come from?

A. a travel brochure B. a novel C. a newspaper D. a shopping guides

(C)

My grandfather was the only one in his family to come to the United States. He still had relatives living in Europe. When the First World War broke out, he felt sorry about the fact that if my uncle, his only son had to go, it would be cousin fighting against cousin. In the early days of the war, my grandmother asked him to stop taking the German newspaper and to take an English language paper instead, he explained that it was an American newspaper, only printed in German. But my grandmother insisted. So, he finally gave up the German newspaper.

One day, the inevitable happened and my uncle Milton received his draft notice. My grandparents were very upset, but my mother, his little sister was excited. Now she could tell her girl friends that her soldier brother was going off to war. She was ten years old then. All the little girls were delighted. When the day came for him to leave, his whole regiment(团), in their uniforms, left together from the same train station. There was a band playing and my mother and her friends came to see him off. The moment came and the soldiers, none of whom had had any training, boarded the train. The band played and the crowd cheered. Although no one noticed, I'm sure my grandmother had a tear in her eye for the only son, going off to war. The train groaned as it knew the destiny to which it was taking its passengers still cheering and waving their flags, the band still playing, the train slowly departed the station.

It had gone about a thousand yards when it suddenly stopped. The band playing, the crowd stopped cheering. Everyone gazed in wonder as the train slowly backed up and returned to the station. The doors opened and the men started to file out. Someone shouted, "The war is over." For a moment, nobody moved, but the people heard someone bark orders at the soldiers. The men lined up formed into two lines, walked down the steps and paraded down the street, as returning heroes, to be welcome home by the crowds.

My mother said it was a great day, but she was just a little disappointed that it didn't last a tiny bit longer. The next day my uncle returned to his job, and my grandfather resumed reading the German newspaper, which he read until the day he died.

62. Why did my grandmother insist on her husband's quitting reading German newspaper?

- A. Because she hated Germany very much.
- B. Because the newspaper were only printed in German
- C. Because she was afraid of being mistaken for Germans
- D. Because English was a more popular language at that time.

63. Which of the following statements is TRUE?

- A. Some of the boys in my uncle's group were trained before going to war.
- B. My grandparents went to the railway station to see my uncle off.
- C. My mother was upset when hearing my uncle was going to war.
- D. My grandfather didn't read German newspaper until the war ended.

64. What happened to my uncle according to the passage?

新东方 老师好!

- A. He was warmly received after he came back from war.
B. He had been longing to join the army since his childhood.
C. The war was over before he was sent to the frontier
D. It was a long time before he resumed his job

65. What might my grandmother feel on the day when she sent his son to war?

- A. relieved B. disappointed C. shocked D. terrified

Translation VI. Translation

Directions: Translate the following sentence into English, using the words given in the brackets.

- 1.环顾四周，我惊讶地发现我是车上仅剩的乘客。(leave)
- 2.不久他就意识到缺乏自信是他这次失败的原因。(It, account)
- 3.老师对于如何提升阅读技巧的建议的确有效的。(prove)
- 4.暑假期间，他参加了各种志愿者活动，这让他受益匪浅。(benefit)
- 5.经过了一个学期在建平的学习，我们意识到投入各种活动来培养自己能力的重要性。(involve)

VII. Guided writing

Directions: Write an English composition in around 100 words with the title given below.

"An unforgettable acting experience in the drama class"
